and 'Auf Wiedersehen!'

**The Dances**

The course will teach 19th century ballroom dances from Europe – in particular from Austria – and North America. Among them will be *the Great Mazur*, a social dance choreographed by the Viennese dancing master Mieczysław Hłasko and taught from the original descriptions published between the years of 1846 and 1889. Another will be *the "European Quadrille"*, a set of six quadrilles with national characteristics: named France, Prussia, Italy, Russia, England, and Austria as a Grand Finale. This quadrille, representing the unification of the European dance culture of the 19th century, has been choreographed by Sylvia Hartung; it contains authentic dancing figures typical of each particular country (based on scholarly studies), and its beauty is musically enhanced by the inimitable tunes of C.M.Ziehrer (1862). The feel of the 19th century Vienna will be further heightened by inclusion of the enchanting *Waltz-Cotillions* and *Ballroom Polka* with Bohemian, French and German steps and figures, as well as *the favourite couple dances* of that era. The diverse North American salon dances of the 19th century will demonstrate the contemporary dancing trend to adapt the original European dances to livelier American taste. Apart from these "dance staples", the course will include European and North American contradances, quadrilles and circle dances. The teaching of the *Quadrille Francaise in a Viennese Style* according to Haraschin's choreography of 1880, and in present day ballroom version of Vienna, will demonstrate the interconnection between the grandiose social dance culture of the 19th century and the Viennese ballroom tradition of today.

A more detailed programme for Courses 1 and 2

will be issued at the beginning of 2012
